

# Sitri Sigil Making

First if you have not done so already, please put on your ritual garments.

All hallows eve, Samhain was an important festival to mark the beginning of winter, a night in which was said to be when the spirits of the ` past return to earth. In Gaelic Samhain was pronounced

‘SOW-EN’ cited to have its routes originating in Iron Age Britain, holding great feasts of what the summer sun had granted them. The representation of fire is an important symbol for this time of year. In Satanism fire is symbolic of the morning star, a symbol of rebellion and the flame of Promethean knowledge which sits between Baphomets horn reminding us knowledge is key.

Knowing this important information about our ritual tools, now we light our candles to begin the ritual.

Satan, king of the earth we do indeed invoke thee, our luciferian will is strong so with this bell I cleanse our minds when rang 3 times, when I perform this act you will rid of the tortures of the mundane, cancel stigmas which are held against us and clear our minds ready for the infernal promethean knowledge which is granted to us during this ritual. I call upon the forces of pandemonium to assist us in our ritual this fateful evening.

Please all repeat after me, until we reach Hail.

“Belial, E-O-PAN, Loki, Lilith, Moloach, Mephistopheles, Paimon, Kali, Asmodeus, Beelzebub, Namaah, Satanus, Lucifer. Hail!”

The ritual will now continue with me explaining what we’ll be treating ourselves with on halloween.

Our life is shaped by our mind, we become what we think, this is manifestation. We on this eve of Hallows, will be creating a sigil. This all powerful sign will assist us in our greatest desires over the next year. Cherish your sigil once made, frame it, stick it on the fridge, place it is by your bed, but have this sigil in sight. The reason for your sigil is to be a reminder. A reminder to make your desires and dreams a reality.

Now with our writing implements and paper, be that goat skin or not, we will write that desire out, however you must write down your desire as though it has already happened or happening. For example my desire will not be:

“I’m going to write and complete my academic book this next year that will be successful”

but

“I have successfully, academically written a book that’s cherished by the vast number of people that own it”

Please all raise your hands once you’ve completed this step of the ritual.

Now we must cross out all of the vowels in the sentence.

Please all raise your hands once you’ve completed this step of the ritual.

We will create a symbol, our logo’s of fortune, the artwork of manifestation. This next step will be our reminders to work towards our desire, with the making of our sigil. With the remaining letters construct your symbol.

Please all raise your hands once you’ve completed this step of the ritual.

Anatole France, author of ‘Revolt of the angels’ said: “To accomplish great things, we must not only act, but we must also dream; not only plan but also believe”

Every time you see your masterpiece, let it be a reminder to cause action with your will to make your desire a reality, your own dream conjured into reality, this is magick. Invent your world, with the colours of your satanic will, your great will as humans.

A word of caution with your sigil, ensure to make your sigil lasts for a year for next year we’ll be reflecting on how your sigil worked and if you manifested your desire to it’s fullest effect, the sigil is the tool, you have to use it in order for it to reach it’s fullest potential. Trick and Treat yourselves

So now we close our ritual with these words with one hand above our sigil, repeat this rhyme after me to reenforce this magick.

I swear on this night of all hallows eve,  
To make a promise unto thee,  
To follow the power with this sigil  
My desire is deep, followed by my true will

Now after the third bell chime which will close our veil between pandemonium and our realm, blow out your candles after you repeat the words,

*Ave Salanas Hail Salan So it is done*
